
Lyrics of Life

2006

I gotta shake it off
Cause the loving ain't the same
And you keep on playing games
Like you know I'm here to stay
I gotta shake, shake it off
Just like the Calgon Commercial
I really gotta get up outta here
And go somewhere
I gotta shake it off
Gotta make that move
Find somebody who
Appreciates all the love I give
Boy I gotta shake it off
Gotta do what's best for me
Baby and that means
I gotta shake it off.

Because of You
I never stray too far from the sidewalk
Because of You
I learned to play on the safe side
so I don't get hurt
Because of You
I try my hardest just to forget everything
Because of You
I don't know how to let anyone else in
Because of You
I'm ashamed of my life because it's empty
Because of you I am afraid

When the sun goes down, we'll be groovin
When the sun goes dwon, we'll be feelin alright
When the sun sinks down over the water
Everything gets hotter when the sun goes down

That may be all I need
In darkness she is all I see
Come and rest your bones with me
Driving slow on Sunday morning
And I never want to leave

I can't always be waiting on you
I can't always be playing your fool
I keep playing your cards, but it's not my scene
Won't this plot not twist?
I have no place to read?.
Keep building me up, then shooting me down
Well, I'm already down
Just wait a minute, Just sitting waiting
Just wait a minute, Just sitting waiting

I keep thinking times will never change
Keep on thinking things will always be the same
But when we leave this year we won't be coming back
No more hanging out cause we're on a different track
And if you got something that you need to say
You better say it right now cause you don't have another day
Cause we're moving on and we can't slow down
These memories are playing like a film without sound
And I keep thinking of that night in June
I didn't know much of love

"Breakfast at Timpani's"

During the final weeks of school, seniors need to be informed about the upcoming decisions and the upcoming events. Breakfast is the first kickoff, and at the breakfast the seniors vote for their class song, learn about the upcoming senior dinner dance, fill out forms, and, of course, eat breakfast in celebration of their final year in high school.

ACTIVITIES

sENIOR dINNER dANCE

The senior dinner dance begins with the dinner and ends with the dance! Right after the seniors sit down to eat food, catered by Munchies, the entertainment begins. **Derek Aldrich** displays his light saber skills in the first act and invites **Sara Baird** to challange him in Act 2. Then, **Zach Heimach** and **Austin Freels** sing "Save a Horse, Ride a Cowboy" in Act 3. Our final entertainers, **Erik Markham, Dustin Hardesty, Andrew Reger**, & **Eric Tracey,** perform three songs, and then **Matt Knox** decides to join in on the fourth song playing the tamborine and displaying his fine dancing skills.After the performances end, **Austin Freels**, the dj, plays the tunes that make the students get on the dance floor to shimmy and shake.

When asking both genders how they feel about their high school experience and what will come next the, responses vary, but the answers give the same information. For homecoming this year, the sophomores decide to be rebels and wear togas for overall and bandana day. They claim togas were overalls way back in the day of the Romans. Even though the juniors dominate the homecoming competitions, the whole school has a good laugh at the sophomore humor. Sophomores **Vincent Caprino, Zachary Peters, Courtney Harpenau, Jake Cyran, Matthew Hullinger, Spencer Stafford,** and **Dustin Mason** show off their togas.

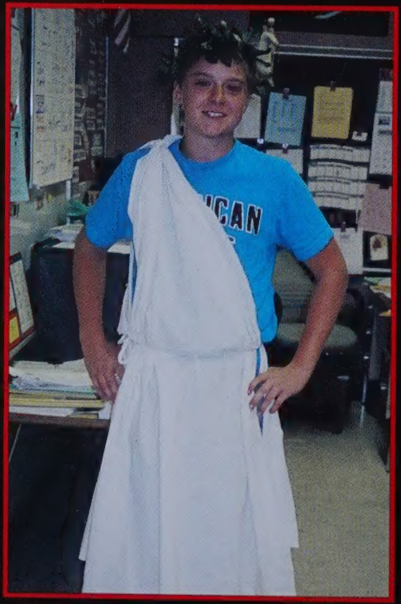
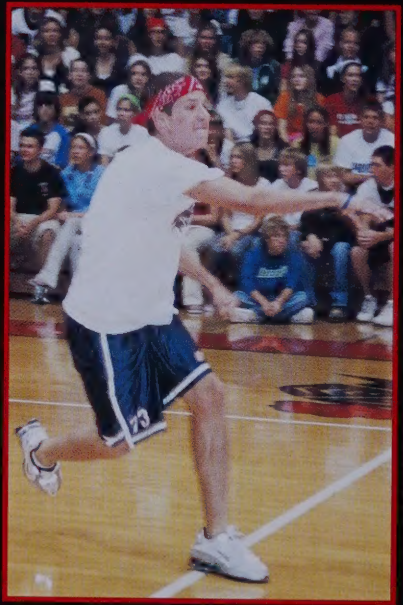
Jack Conrad shows how charming he can be in his white toga. He is also fashioning it like an American Eagle shirt. Was American Eagle made in the time of the Romans, Jack? Obviously, our DeKalb High School sophomores made their own fashion styles this year.





Nate Morrow dominates the dodgeball competition at the homecoming convo. The freshmen class look in awe of Nate and wish that some/day they can be great dodgeball players like Nate.

Volleyball

With all new coaches, the Baron Volleyball Team works hard to prepare for the season. The girls improve their game and bond as a team all summer during open gyms and 2-a-days. They start on a positive note by beating county rival, the Garrett Railroaders. Throughout the season the ups and downs get tough, but the girls refuse to give up and finish proud of their improvements and achievements. The team finishes the season with a record of13 and 19. This includes the NHC record of 3 and 4, placing them 4th in conference. This also includes their tournament record of 6 and 6. An additional accomplishment for the girls is their 2nd place finish at the Whitko Invitational. The players will miss the seniors next year but the underclassmen look forward to another fun year to come!

Boys Soccer

The group of soccer players that are well-known for their history of successful soccer hope to dominate the field again this year. The 9 seniors plan on leading their team in showing their competitors what Baron Soccer is all about. The boys' talents, though, do not come easily. During the summer the players spend many hours getting ready for a tough season to come. The team also takes time out to go to a camp over the summer where they not only practice soccer but learn to come together as a team. The outstanding final record of 15-5 proves that the players' hardwork definitely pays off. Another accomplishment for the boys is their much wanted sectional title. The final sectional game against East Noble is a close one but won in a shootout after two overtimes! After advancing to regionals, the team loses a heartbreaker to Northridge with a final score of 1-2. The Baron team is proud of their season and hopes their success carries over to next year.

Baron Football Springs Ahead

A football season contains wins, losses, and achievements. Many Barons receive awards for the various positions because of teamwork and hardwork. This year's "offensive award" goes to Jabraun Knox, "defensive award" to Dan Iddins, "lineman award" to Robbie Brewer, "special team" award to Luke Hofmeyer, "demo award" to Corbin Smith, and "MVP" to Dan Iddins. Also, another special award the football players recieve marks a great acomplishment, the "1st Team All-Conference" award. Players who receive this award include JaBraun Knox, Drew Bishop, and Luke Hofmeyer. The Barons win four of the six games played and three in the conference. An outstanding record, 9-0, by the freshmen shows hope for the next few years to come. This season gives the freshmen their third perfect season in a row.

After losing five seniors, the 2006 season seems questionable to most, but the Lady Baron Tennis Team proves that they would still be a big threat. With only two varsity players back, Coach ONeal, although unsure of the roster, chooses a successful line-up of #1 singles, Natalie Buchs; #2 singles, Rachel Buchanan; #3 singles, Courtni Gafken; #1 doubles, Rachel South and Georgia Lesser/Carolyn Hanes; and #2 doubles, Megan Culler and Brittany Hanes. The team first shows their capabilty by placing 4th at the Park Tudor Invitational. The Barons then win by a mere one point at the DeKalb Invitational. In conference the girls have a 3rd place finish behind Carroll and state-ranked Homestead. The girls also keep a tradition going by winning the sectional for the 15th year in a row! After winning the first round at regionals 3-2, the Lady Barons fall short to Elkhart Central in the finals with a score of 1-4, the only win coming from the #2 doubles team of Brittany Hanes and Megan Culler. At the conclusion of the season, the team finishes with an impressive record of 13-3. Earning 1st Team All-Conference honors is #1 singles player, Natalie Buchs; she finishes with a season record of 20-3. Rachel Buchanan, #2 singles player, earns 2nd Team All Conference with a season record of 19-4. The lone senior on varsity, Courtni Gafken, finishes 16-7 at the #3 singles spot. A STUDY INVOLVING THE SYNTHESIS OF CARBON NANOTUBE FILTERS IN THE MACROSCALE WITH MEASUREMENTS CONCERNING THE EFFECTIVENESS OF METAL DERIVED CATALYSTS: A CONTINUATION

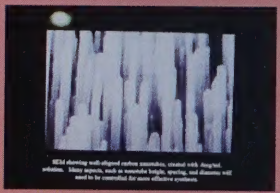
Jennifer's project on carbon nanotube filters wins her first place at the local science fair in the senior division. For her project Jennifer uses her collected data from her procedure to determine if the filter she made is effective. She enjoys science fair because of the insight she has received from the many professsors she has worked with. She also likes being able to meet so many amazing people at the competitions. At the Regional Science Fair Jennifer receives 1st place in the chemistry division and, along with many special awards, she is awarded with a trip to the Indiana Science and Engineering Fair and to the International Science Fair.



Pete Gallagher
"Light Emitting Diodes"

Pete's science fair project this year proves very successful, receiving 3rd place in the DeKalb Senior Division and 2nd place in the engineering category at regionals. For his project, Pete built a device to measure the light output of three types of lighting: incandescent, compact fluorescent, and LED lamps. He then used a multimeter to measure photo resistance and current for each kind of light. This project brings him to the conclusion that compact fluorescent lights are currently the most practical for domestic lighting, and LED lights will be popular in the future. Pete also wins many special awards with his project including the Army Award, Air Force Award, Electrical Engineering Award, and the DeKalb Memorial Hospital Award. Pete enjoys doing the science fair because he gets to learn about a specific topic while competing with other students.

Vince's Science Fair Project entitled "Rockets" earns him a 2nd place finish in the senior division at the local science fair competition. The purpose of his project is to test fin designs on model rockets. He does his project by designing fins, assembling rockets with these fins, and then launching these rockets. He then records and compares each rocket's altitude and stability. After doing this project, he comes to the conclusion that a hallow, triangular fin has the best stability and that a four triangular fin configuration has the best altitude. With this project he wins the Star Technology Award and receives 1st place in Environmental Earth/Space Science at the regional competition. With homecoming and the DeKalb County Free-Fall Fair all in one week, many activities consume students. Monday night the fair hosts the Miss DeKalb County pageant; Tuesday the show choirs perform, including our own Classic Connection and Sound Sensation. Wednesday night is full of fun--the senior girls play the junior girls in the homecoming powder puff game; afterwards,Josh Gracin lives it up on the stage. Thursday, various dance groups perform at the fair, and on Friday, students attend the fair all day, play games and ,of course, eat fair food; later students enjoy the homecoming football game and dance.

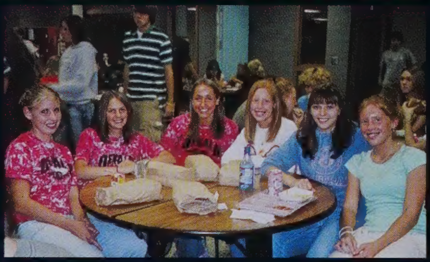
Johnny Lorey, Jeffery Staten, Travis Hamilton, Stephen Boviall and **Austin Barron** enjoy their delicious lunches. Evidently, Austin likes to "shove it down" before going back to class!



Chelsey Reith, Chelsea Miller, Rachel Hissong, Brittany Hanes, Analise Miller, and **Carolyn Hanes** talk about sports during second lunch and how they are doing in volleyball and cross country!

Megan Collins, Alyssa Van Horn, Alexandra Bertram, and Jael WIlcox talk about all the guys who are looking good that day.

Niles Voelkel enjoys goofing off while enjoying his french fries. At lunch, Niles tells all the jokes. He claims that one time he told a joke that was so hilarious and **Cory Buchs** laughed so hard, milk came out of his nose and he had to run to the bathroom.

Dreads

This guy likes attention !Not everyone has dreadlocks, a unique hair style. It sets a guy apart from everyone else in a way. People tend to expect the guy not to act like every other poser and prep...don't let him down. Be your own person. Dreads mean stepping across a line like saying "hey look, everyone, don't fall in with the rest of the sheep," a feeling shared by anyone who has dreadlocks. The neat thing can be adding beads and what not.

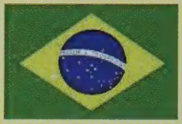
CRAZY about new experiences!

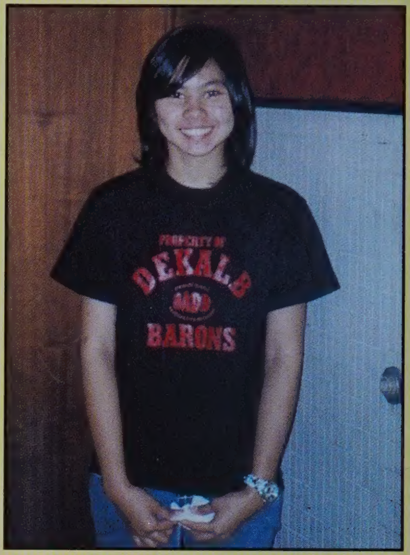


Daniel Souza
Brazil

Dan's favorite thing about being here in America is the good looking ladies. He also says that his host families are awesome. Dan says that the worst thing about America is the cold weather. Back home in Brazil Dan lives by a beach; sorry Dan, no beaches in Auburn!

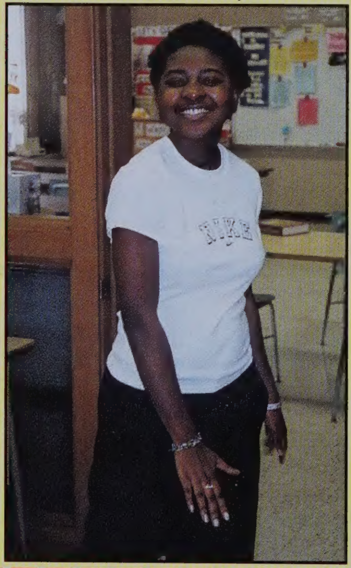
Chanika Usuwan
Thailand

Chankia is from Bangkok, the capital city in Thailand. Chankia says Bangkok is full of skyscrapers and traffic! One of Chanika's favorite things about being here in America is that she does not have to wear a uniform. Another difference for her is that at her school in Thailand there are about 50 students in every class! That's a big difference compared to the 20-30 students per class here at DeKalb. Chankia dislikes the cold weather here in America; suposedly the average temperature in Thailand in the winter is 75 degrees!



Germaine Adusei
Ghana

To Germaine, the best part about being here in America is the nice people she has met and the freedom she has at school. Germaine really likes all the different fast food restaurants and the other places to eat, but says that Ghana has better food because here in the U.S. there is too much fried, sugar-coated, and salty food! Germaine says that when she goes back home to Ghana she will miss all the fun activities going on here in Auburn!



Aksel Widoff
Sweden

Aksel really enjoys the experience of being in and learning about a new culture. DeKalb, though, is completely different from his school in Sweden. He says that in Sweden it is the students responsibitly to be at school and complete homework while here students are supervised very closely. Aksel also says that his homework in Sweden consists of a few larger projects compared to the many small assignments teachers give here in America.

Barons want to thank Mr. Knox for his service and dedication as principal and to wish him good luck as he assumes a new position in the district.

A special acknowledgment to **Leslie Getts** for earning 12 varsity letters during her high school career:

4 in cross country

4 in gymnastics

4 in track.

Congratulations, Leslie!!

A special thanks to the building trades class, Adam Williams, Tom DeLong, Stev Nusbaum, Nick Nodine, Lauren McCallister, Dustin Combs, and Austin Parshall for building this shed for St. Martin Healthcare in Garrett. Thanks for your community service.

Austin Shipe and I would like to say "goodbye" to the 2005-2006 school year. Also, I would like to thank all the administrators, faculty, and staff who supported the production of the Saber for the last 9 years. As an advisor, I will especially miss working with such devoted students, but the torch must be passed.

Ms. Tubergen
